International INCE Financial Report for 2008.

The 2008 financial report for International INCE has been released with the following statement by the auditor.

We have examined the consolidated balance of the International Institute of Noise Control Engineering for the period of 2008 and the related statements of operation and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with the generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. In our opinion, the aforementioned statements present fairly the financial position of the International Institute of Noise Control Engineering, and the results of its operations and changes in its financial position for the year then ended, in conformity with the general accepted accounting principles applied on a consistent basis.

Leuven-Heverlee, 11th August 2009,
