Dear Bill,

Thank you very much for your letter of 18th ult. As you may know, I am coming to NOISE-CON 73, and we may discuss the contents of your letter during NOISE-CON. My preliminary answer to your two questions is: Yes - Yes.

I will arrive in Washington D.C. on 12 October very late in the evening, and I have reserved Saturday and Sunday for preparing my contribution to Session B. I was asked to speak for about ten minutes on ISO reaction to the proposed U.S. Federal Government's plans in regard to noise regulation and control.

It is very difficult indeed to speak on a tremendously important and extensive subject, knowing very little about this subject. Therefore, I should appreciate very much if you would be willing to help me. Could you make it possible for me to receive, when I arrive in Washington, relevant material which will enable me to be properly informed? I know that a number of publications have already been issued. Summary papers are, of course, also most welcome.

I have submitted a similar request to Bill Galloway; I do not hope that this will have the consequence that I receive no information at all, or all in duplicate, and presume that, if necessary, you will coordinate your information.

Looking forward to seeing you in Washington,

Yours sincerely
